CONCERNING ACCESS TO ABORTION MEDICATION SERVICES ON COLORADO COLLEGE CAMPUSES.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly finds and declares that:

(a) Access to reproductive health care is a fundamental right for every individual in Colorado under the state constitution;

(b) The state equal rights amendment, or ERA, article II, section 29 of the state constitution, establishes that "[e]quality of rights under the law

Capital letters or bold & italic numbers indicate new material added to existing law; dashes through words or numbers indicate deletions from existing law and such material is not part of the act.

shall not be denied or abridged by the state of Colorado or any of its political subdivisions on account of sex";

(c) Gender equality is fundamental to ensure full participation in society for all individuals, and true equality cannot be achieved without access to reproductive health care, including abortion;

(d) Despite the state ERA, sex discrimination in Colorado persists, including discrimination based on sexual orientation, gender identity, and pregnancy, resulting in inequitable access to reproductive health care, including abortion;

(e) Institutions of higher education serve a diverse student body, including women, transgender men, and nonbinary individuals, all of whom may require abortion medication services as part of their reproductive health care;

(f) Providing reproductive health care, including abortion medication, is a generally accepted standard of medical practice that promotes gender equity for students at all institutions of higher education, including rural and underserved areas; and

(g) It is necessary to establish requirements for institutions of higher education that operate student health centers to ensure access to abortion medication services consistent with that right.

SECTION 2. In Colorado Revised Statutes, **add 23-5-151** as follows:

23-5-151. Abortion medication access - student health centers - data privacy - definitions.
