HOUSE
3rd Reading Unamended
March 31, 2025

For construction of middle market housing, **section 3** of the bill requires a person filing a construction defect action against an architect or engineer to file with the complaint an affidavit of a third-party licensed professional indicating the negligence or other action, error, or omission of the construction professional. **Section 3** also establishes a rebuttable presumption that a property does not have a construction defect when a state agency or local government has issued a certificate of occupancy for the property.

HOUSE
Amended 2nd Reading
March 28, 2025

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.
Capital letters or bold & italic numbers indicate new material to be added to existing law.
Dashes through the words or numbers indicate deletions from existing law.

Section 4:

- Establishes a claimant's duty to mitigate an alleged construction defect and specifies how a claimant may satisfy this duty and the consequences to a claimant that fails to satisfy this duty;
- Requires that a construction professional must send or deliver to the claimant an offer to settle the claim or a written response that identifies the standards that apply to the claim and explains why the defect does not require repair; and
- Requires a construction professional who is the defendant in a construction defects action to submit specified information to the claimant.

Section 5 updates the statute of limitations for construction defect claims to 10 years unless the construction professional provided the consumer with a warranty that meets the requirements of the bill, in which case the statute of limitations is 6 years. **Section 6** tolls the statute of limitations or repose during a claimant's mitigation of an alleged construction defect claim brought for the construction of middle market housing.

Section 7 allows a construction professional that meets specified requirements to use certain affirmative defenses in construction claims brought against the construction professional for the construction of middle market housing.

Current law requires the executive board of a unit owners' association (executive board) to obtain approval from a majority of owners before initiating a construction defect claim on behalf of the owners. **Section 8** increases the approval amount to 65%. **Section 8** also requires an executive board that is successful in a construction defect claim to first use monetary damages received as a result of the claim to repair the construction defect.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Short title - legislative declaration.** (1) The short
3 title of this act is the "Colorado American Dream Act".

4 (2) The general assembly finds that:

5 (a) Homeownership is a cornerstone of economic stability, but for
6 many Coloradans, particularly first-time homebuyers, it has become
7 increasingly out of reach. Surveys show that while 90% of renters aspire

1 to own a home, more than half believe it is unattainable. This concern is
2 personal for many, with over 4 out of 5 parents expressing concerns about
3 whether their children will be able to afford to live in Colorado. Many
4 Coloradans agree that increasing the variety and availability of housing
5 options is crucial, as people want the ability to find and choose housing
6 that fits their needs, whether it's through more accessible price points or
7 housing types.

8 (b) Millennials, the largest group of homebuyers in Colorado at
9 38% of the market, are facing increasing challenges, as the median age of
10 first-time homebuyers has risen from 35 to 38 in just the past year. These
11 gaps are just a few of many that highlight the urgent need for policies that
12 facilitate affordable and attainable homeownership, particularly through
13 the construction of entry-level homes.

14 (c) Condominiums and townhomes have often served as
15 affordable starter home options, providing the first step on the
16 homeownership ladder for many Coloradans. Despite the clear need for
17 these homes, however, condominium development in Colorado has
18 drastically decreased. Before 2009, there were 1.25 new apartments for
19 every one condominium. This has shifted radically to 14 new apartments
20 for every condominium in recent years. The decline in condominium
21 construction coincides with a housing shortfall of at least 100,000 homes
22 in the state, further worsening the availability of affordable options for
23 first-time buyers.

24 (d) Current construction litigation laws are often cited as a
25 contributing factor to the high cost of construction and a deterrent for
26 developers to pursue condominium projects. At the same time,
27 homeowners have limited up-front assurances of high-quality

1 construction in new homes. It is critical that policies seek to support
2 homeowners' rights while spurring development in a key housing market.

3 (e) Without addressing these challenges, Colorado will continue
4 to experience a shortage of entry-level homes for its first-time
5 homebuyers and struggle to meet the needs of Coloradans. It is imperative
6 that the state creates policies that encourage the entire housing ecosystem
7 to work together to create more attainable housing options for
8 Coloradans.

9 (f) This act is intended to:

10 (I) Promote the construction of affordable homes so that
11 homeownership becomes a more attainable goal for a larger portion of the
12 population;

13 (II) Expand prospective homeowners' access to high-quality,
14 well-constructed homes;

15 (III) Ensure continued protections for homeowners when defects
16 in their homes exist;

17 (IV) Reform construction litigation to reduce the excessive costs
18 associated with entry-level home development;

19 (V) Strengthen Colorado's housing market by expanding
20 opportunities for first-time homebuyers; and

21 (VI) Ensure that future generations of Coloradans are able to
22 access the American dream of homeownership, which is integral to
23 long-term financial security and generational wealth-building; and

24 (g) This act is rationally related to the legitimate state interest of
25 increasing middle market housing in Colorado.

26 **SECTION 2.** In Colorado Revised Statutes, 13-20-802.5, **add**

6 CLAIM BY THE CONSTRUCTION PROFESSIONAL PROVIDING AN OFFER
7 PURSUANT TO SUBSECTION (9)(a)(I) OF THIS SECTION.
