Re: HB 1241 Public accessibility emissions records

Dear Energy & Environment Committee.

My name is Ann Sutton, living in Westminster CO. This testimony represents the position of the League of Women Voters of Colorado in **Support** of this bill to facilitate public access to data about air quality in our communities in a timely manner.

Concerned community members want and need access to comprehensive data to alert citizens of air toxic concerns for protection and mitigation opportunities with respect to specific communities.

The League believes that democratic government depends upon informed and active participation at all levels of government. Governmental bodies must protect the citizen's right to know by making public records accessible.

Thank you to the sponsors for providing this encouragement to our citizens and communities.

Sincerely,

A handwritten signature in cursive script that reads "Ann Sutton". The signature is written in black ink on a light blue rectangular background.
