SB26-033 Clean Energy Permitting Processes

Typed Text of Testimony Submitted

Name, Position, Representing	Typed Text of Testimony
Ingrid Moore Against themselves	<p>I oppose this bill. Please vote NO.</p> <p>On first glance, creating a Colorado Clean Energy Permitting Coordination Office to serve as a single point of contact for entities involved in clean energy resource facility projects may sound positive.</p> <p>But this would apparently be created using existing resources, adds no FTE, asks for no money (no FN) and by definition the office would duplicate existing permitting functions. This is adding another layer of bureaucracy to the process and would indeed burden existing staff that are doing the same thing.</p> <p>And WHY JUST CLEAN ENERGY? This is an attempt to add roadblocks and burdensome regs to thwart adoption of new clean energy projects.</p> <p>PLEASE VOTE NO!</p>
